G10 GREENBACK

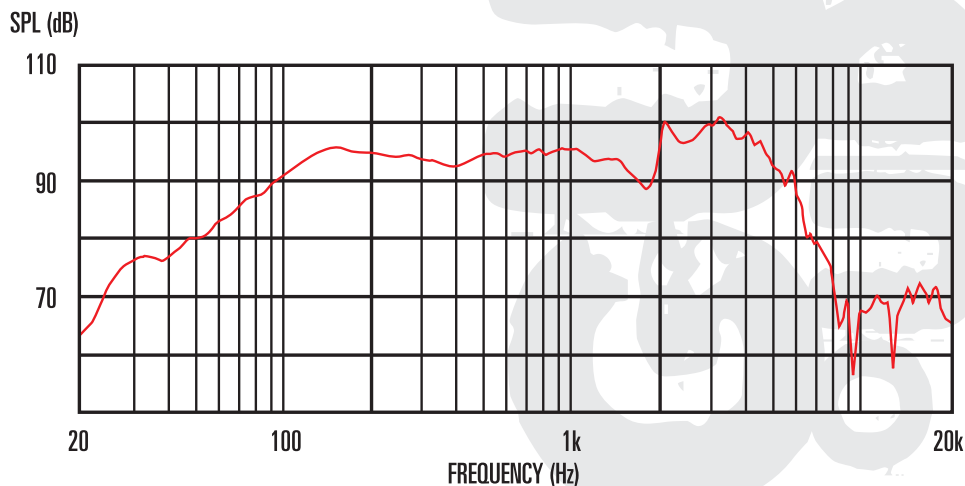

The G10 Greenback is a 10-inch guitar loudspeaker capable of delivering classic rock tone.

By performing extensive listening tests with 10-inch Celestion ceramic drivers from the late 60s onwards, as well as drawing on the experience gained from the development of the original G12M Greenback, Celestion design engineers have created a speaker that remains faithful to the sonic spirit of the Greenback family. It has the same warm-bodied character and delivers tone like the distinctive 'sports-car growl' that is the trademark of the original 12-inch G12M 'Greenback'.

Featuring a new eight hole chassis that's more versatile for upgrades, the new G10 has been built with its own green can, which should leave no-one in any doubt of this remarkable speaker's family history. The G10 Greenback truly is a contemporary speaker with a vintage pedigree.

8Ω FREQUENCY RESPONSE

GENERAL SPECIFICATIONS

Nominal diameter 10", 254mm
 Power rating 30W
 Nominal impedance 8Ω & 16Ω
 Sensitivity 95dB
 Chassis type Pressed steel
 Voice coil diameter 1.75", 44.5mm
 Voice coil material Round copper
 Magnet type Ceramic
 Frequency range 95-5500Hz
 Resonance frequency, Fs 98Hz
 DC resistance, Re 6.4Ω & 12.05Ω

MOUNTING INFORMATION

Diameter 10", 254mm
 Overall depth 4", 102mm
 Magnet structure diameter 4.9", 124mm
 Cut-out diameter 9.0", 229mm
 Mounting slot dimensions 0.25 x 0.43", 6.5 x 11mm
 Number of mounting slots 8
 Mounting slot PCD 9.6", 245mm
 Unit weight 3.6lb, 1.6kg
